PLUMVILLE PICKINGS.

What Our Good Friends Have Been Doing Since Our Last Report.

Mrs. Mearns Hughes is visiting relatives at Lexington.

Little Walter, son of Mr. and Mrs. D. H. Jenkins, is quite ill.

Mr. Harry Webb returned to his home at Cincinnati after a week's visit with relatives here.

Miss Lana Davis of near Lexington was a guest of her aunt, Mrs. Marshall Davenport, the past week.

Mrs. Bodman and daughter of Orchard Farm visited the family of Mr. Henry Luman near Taborville Friday.

Little Miss Anna Lee Davis told into the city at her home Monday. She was asked from drowning by the heroic efforts of James Farnam, as she was sinking for the third time.

Miss Ida Phillips of Paris returned to her home the first of week after a brief visit to friends at Orchard Farm. She visited the family of Mr. W. D. Hay near Newus route.

The receipts of the Limestone Building Association last Saturday night were \$300.00.

Mr. John Gay, the crack shot of Clark county, has been selected as one of a team of six American trap shots which will represent the United States in the international contest at Monte Carlo next December.

Would Not Suffer So Again for Fifty Times Its Price.

I would not suffer so again for fifty times its price. I have felt no pain in my stomach. I never felt so badly in my life. When I came down with this morning I felt so weak I could hardly work. I went to Miller & McCurdy's drug store and they recommended Chamberlain's Colic, Cholera and Diarrhoea Remedy. It worked like magic and one dose freed me all right. It certainly is the best thing I ever used for stomach trouble. I shall not be without it in my home hereafter. For I should not care to endure the suffering of last night again for fifty times its price.—H. W. WOOD, Livermore, Bartonsville, Washington, D. C. This remedy is for sale by J. J. Wood & Son, Druggists.

VERY EASILY MANAGED.

How the Catholic Wife With An Orange Husband Evaded Up.

What Superstition.

A girl recently returned from a visit to Ireland told the following story. He was introduced to distinguished Celtic Dublin and after relating his experiences in the country, the latter told one of his. While he was enroute for his election to Parliament he visited a workingman's house, in the principal room of which a pictorial representation of the Pope facing an illustration of King William in the act of crowning the Boyne. The candidate started from him to the other in amazement, seeing his surprise the wife exclaimed:

"Sure, my husband's an Orangeman and I'm a Catholic."

"How do you get on together?" asked the astonished politician.

"Very well indeed," replied the lady, "having the Irish of July, when my husband goes out with the Orange procession and comes home drunk."

"Well,"

"Well, he always takes the Pope down and jumps on him, and then goes straight to bed. The next morning I get up early before he is awake, take down King William and pave him, and buy a new Pope with the money. Then I give the old man the ticket to get King William out."

If you're gray before forty there's something wrong.

## DESTRUCTIVE PROJECTILE.

Experiments by the Government at Sandy Hook With Shells That Will Erupt a Whole Battalion.

New York, June 28.—Tests of a shell of a remarkable explosive power and wide radius, which is to be used in the fall campaign in the Philippines, are being made at the Sandy Hook proving grounds. This new engine of destruction is said to produce a shock as effective as a stroke of lightning, and its capacity to annihilate by bursting fragments is so great that it has not yet been accurately estimated. The test shells at the proving grounds may be discharged at ordinary artillery range and that it will explode on striking in trenches or light structures. The envelope of the shell bursts into hundreds of fragments and are thrown in all directions, as well as the contents of the shell. The character of the explosion is such that it produces a fatal shock within a certain radius.

A shell of this nature charged with an explosive equal to melinite, or dynamite, falling near a battalion of the enemy, would kill or cripple a very large percentage of the enemy.

Gen. Miles favors this explosive.

## THE RIOTING CONTINUES.

Nonunion men on the Cleveland Road Consolidated Lines Stoned and Forced to Leave Their Cars.

CLEVELAND, O., June 28.—The riotous outbursts of Monday were repeated Tuesday in several quarters of the city, non-union men on Big Consolidated lines being stoned and forced to abandon their cars. Only two cars were operated by non-union men on the Broadway line, and these were repeatedly stoned, every window being broken, and the conductors and motormen being repeatedly struck.

At Astor avenue a mob of several hundred strong was broken up by police. The non-union men took to their heels pursued by the crowd, but made their escape, leaving abandoned cars wrecked by the mob.

Similar scenes were enacted at noon at Denison and Rhoads avenues, and Burton and Clark avenues. The exodus of non-union men from the city continues.

## RETURNS HOME ILL.

Mrs. McKinley, White Away, Contracted a Cold Which Brought on an Old Malady—Can Not Walk.

WASHINGTON, June 28.—The presidential party returned to Washington Tuesday morning at 10:30. Mrs. McKinley looked pale and as if suffering severely. She was assisted from the carriage to her room by the president and Dr. Elvey, being unable to walk without support on each side. The physician states her condition can not be regarded as serious, but that a severe cold contracted on the trip brought on a recurrence of the malady of which she has been a sufferer for years. Unless Mrs. McKinley improves in the next few days she will be advised to take a trip to the seashore.

## Anti-Imperialist's View.

BOSTON, June 28.—When asked for his views Tuesday on Gen. Otis' statement that the Filipino's sole hope lay in American aid, Winston Warren, a prominent anti-imperialist, said: "It makes no difference what anyone says. We are fighting the battle of liberty, and we are not influenced by the fact that it benefits the Filipino or whether it benefits Ireland. If the Filipino are hoping for the overthrow of the administration, so are we."

## A Million Canned a Murder.

CHATTANOOGA, Tenn., June 28.—William Haywood, a farmer, sat down on a watermelon in front of a grocery store and burst it. A clerk demanded pay for the melon, and when it was not forthcoming he struck at Haywood with a hoe handle. The blow struck him at the base of the brain and killed him instantly.

## The Greatest Election on Earth.

New York, June 28.—The organization of a great union of 500,000 workers in Greater New York has been begun by a committee appointed by the Central Federated Union. This will be the greatest local union on the face of the earth.

## The Philippines Are Muzzling.

MAYAGUE, June 28.—Austrian engagement between Mactan's men and the insurgents is likely to occur soon. The insurgents are massing in considerable force in front of San Fernando, where Mactan's troops are resting. The United States transports Hooker and Grant arrived Tuesday morning.

## Strikes Decried On.

BUFFALO, N. Y., June 28.—The strike of the freight handlers along the docks which has been in progress for several weeks, was declared on Tuesday night and the men returned to work on Wednesday morning.

## Louisville Has No Saloons.

One of the bequests in the will of Mrs. Mary O. Markey, who died some years since, was given for a chapel in the Cemetery at Foster, Bracken county, but conditioned it on the agreement of the Trustees to tear down the present structure and use the material to help build a new one. This they have refused to do, and, according to the terms of the will, the money reverted to her estate. The heirs assigned the amount to James E. Abrams, a lawyer, and in the Probate Court at Cincinnati Monday an entry was made allowing the money to be paid to him.

## IMMEDIATE RELIEF AND PERMANENT CURE.

## JOHNSON'S DYSPEPSIA CURE

A Scientific, Inflicting and Permanent Remedy for Dyspepsia, Indigestion and All Stomach and Nerve Troubles.
